***FALL means MAINTENANCE & SUCH...***

October will be here by the time you receive this newsletter. A very colorful season here in Wisconsin, with trees turning colors plus hunting seasons have opened and blaze orange and camouflage will be the color of choice as well. This means trail work will be right around the corner. From contacting landowners to brushing and installing trail markers, we plan to complete this before the snow flies. We also have started trail work; landowners will be contacted within the next couple of weeks. There may be some new landowners that we will need to meet with so we can go over what are club is about and how the trails work. If you as a landowner have moved or sold your land that our trail crosses, please give us a call and let us know who the new owners are so we can contact them.

We have also started working on our Tucker where we are replacing all the belting for the front tracks. When we purchased our Tucker, we replaced the rubber belting on the both rear tracks and have not had an issue with those. The front tracks have been pieced together over the years and we have had some problems. The new belting will ensure reliability and help keep our Tucker up and running. Also, we plan to grease and repack the bearings and under carriage while we have it blocked up and the tracks off of it. We are also adding an additional pintel hitch right above the existing one. Our existing one snapped last year in the woods and we had to pull out our drag and leave it in the field while we ran the groomer back and welded up the hitch. That Tucker really moves when you're not pulling the drag. The guys went past a couple of sleds that were parked on the side of the trail and you would have they would have gotten whiplash when our Tucker flew past them. Running it like this also helped clean out the carbon.

This about does it for me for this month. By this time next month, Thanksgiving will be a couple of weeks away and after that, snow!!!

Till next month, keep your track in the snow and I'll see you on the trails.

## **BOB HOFFMANN**

Bob lost his battle with cancer last week Tuesday after returning from a weekend bear hunting up north. He was a longtime member of the Snow Drifters and worked with us at the fair as well as helping us rebuilt our cook shack and bar over the last couple of years. Many of our members either were good friends with him or knew of him due to his local ties as a carpenter and home builder. Bob will be missed by many friends and family. His funeral and visitation were scheduled for Monday, October 1. Our thoughts and prayers go out to Bob's family.

## **TRAILS**

We are looking to start working on trails near the middle of October. Please mark your calendars for the following Saturdays for trail work:

Saturday, October 20

Saturday, October 27

Saturday, November 3

Saturday, November 10

Saturday, December 1 (if needed)

Saturday, December 8 (if needed)

Plan to meet at Ma Kison's at 7:30am. As in the past, we will work till early afternoon. The more members we have helping, the quicker we can get done. Deer hunting opens on weekend before Thanksgiving, so we need to get in as much as we can before then. Stop in at October's Club meeting and let us know if you are able to help.

## **LANDOWNERS**

We will be contacting you within the next couple of weeks to get permission to cross your land again this year. If you had any problems last season with the trail and/or snowmobilers, please let us know so we can work on this to improve the situation. We appreciate your willingness to allow us to cross your land each season. Without landowners like you, we wouldn't have the trail system we have. Thank you in advance for your cooperation this season.

## **PACKER PARTY**

As I am writing this newsletter, the Club Packer Party has not yet taken place. Next month I'll have an overview of the party and the happenings from there. As of right now, we are expecting 50 or so club members to gather with us at EdgeWater Golf Course to watch the Packer game.

**GO PACK!!!!**

## **MEMBERSHIP DUES**

It is that time of the season to fill out and turn in your membership form along with your dues. Please use the enclosed membership form and either mail it to the address listed at the bottom of the form or bring it to the October Club Meeting. The sooner we can get in the renewing memberships, the sooner we will be 100% AWSC. Plus, our membership database will also be up to date.

If you have friends or relatives that want to join, please feel free to make copies of the membership form or go to our Club's website (listed on the front of this newsletter) and print off some copies. The more, the merrier.

## **FOR SALE**

**2003 Artic Cat F7 EFI**, 2100 miles, excellent condition, asking \$4000.

Call Mark @ 262-268-0426

**2005 Polaris 550 Super Sport** w/reverse, 400 miles, fan cooled, cover & oil & windshield bag included, asking \$4500. Call Jeff @ 262-623-0150
