My Ramblings by Dan Burback

What a beautiful Sunday it is on the last day of November! That first snow storm of our season hit before the end of November and actually caused the cancellation of the Grafton Christmas Parade. It is hard to believe that snow would cancel a Christmas Parade; I feel that would actually enhance the parade to have light white fluffy snow falling while the floats and participants make their way thru the parade route. Here is a shot of our float parked waiting until Saturday, December 6th, for the rescheduled Christmas Parade to start; please mark your calendar's for this event! Looks pretty cool with the light snow covering it on Saturday evening!

Currently our Board is doing our best to plan ahead for our Club, whether financial, trail related, or equipment related; yet there is always a twist waiting for you when you round that corner. And if you have time to check out our FB page and/or other social media, we are doing our best to keep them up-to-date with happenings within our Club. Keep on reading for contributors to our newsletter! Until next year (I know, already) and if I don't see you at our December's Club meeting, have a Merry Christmas and Happy New Year!!

Club Sno Fari

One item we need to toss out to our membership is a Club Sno-Fari. It has been a while since we've actually had one (and specifically stated it was one). If anyone is interested in heading one up, please pick a place, specify dates and possible ride agenda and email or text it to me (Dan Burback) so we are able to put it in the newsletter as well as send out an email blast and put it out in our social media feeds. These trips are always a blast and are an awesome way to get to know your fellow Club members (if you don't know them already)!

Technology by Eric Graves

Sledding season is about to slide into full swing, I can already smell the two-stroke—we want to ride along with you! Share your adventures with fellow club members on the Monticello Facebook Group; snap a photo and let us know where you're riding or how the trails are looking. Even better, drop your location so others can meet up with you out on the snow!

Planning a local ride? Thinking about heading north for a weekend getaway? The Monticello Group page is the perfect spot to rally other members and put together a crew. Look out for any official planned club Snow-Fari trips here too.

So don't be shy—jump in, post often, and help keep the Group buzzing! The more you share, the more fun and connected our season becomes!

Whats Cookin Corner

Hello Everyone, Happy Snow Fall – We got snow! Hope you all had a nice Thanksgiving. Last month's meeting food was a hit! Brats & Beans. So we will do it again this season, a suggestion from Drew (He likes to cook brats). Thank you for always grilling for us.

This month, December 11th is our meeting and is our Holiday Appetizer Night. So far only 3 members have offered to bring something (sounds like a holiday diet). We have meatballs, little sausages & ham rolls so far. Please think about what you could bring and let me know. The club is providing shrimp and raw beef. We need hot or cold dips, cheese & sausage, smoked fish, taco dip, whatever you want to bring. And of course, Christmas cookies and baked goods are always welcomed! Hope to see you all at the meeting.

Merry Christmas & Happy 2026 to those of you I won't see if you don't make the meeting.

Think Snow! Nesco Queen

Trail Opening Considerations

This snow sure is a teaser but we still have a couple deer hunts in the state. December 15 is when the insurance goes on the trail system but the clubs or county alliances determine when the trails are safe and can open. With that being said there are 2 deer hunting season in December, there is an antlerless hunt Dec.11-14 statewide and the antlerless only holiday hunt December 24 2025 - January 1 2026 mainly in the southern portion of the state which includes our trail area. If we have snow and trails are ready to open we have to check with the landowner if we can go across there property or not because they are deer hunting, have to keep the landowners happy. Keep the snow dance going and hopefully we can get our trails open in December.

Trail Updates

At this time, the trails are 95% done. Special thanks to Ken for all his extra work. We will be putting the tracks on the ATV and checking the trail system for down trees. We will remove what we can and plan on finishing on Saturday, December 6th. If you're able to help, it would be appreciated.

We will also check conditions of the low areas and test out the roller, if the conditions are favorable.
