My Frozen Thoughts by Dan Burback

WOW!! It has been a cold, white winter, yet a thin white winter! Not good, yet with this cold snap, all our water areas should be froze tight. Now, let's bring the snow that Florida received! How did they get our snow? That's a bad joke both ways! So right now, when it snows, we are ready as our guys have done an awesome job keeping tabs on problems and issues along our trails! And thanks to all for their hard work getting our trails set and keeping them ready as well as the guys for keeping our Tucker ready at a moments notice!

With trails comes paperwork and we are doing our best to keep our time and equipment entered in SNARS as we go; Dennis has more on this later. The one issue this season is getting new paperwork set up for the Sno-Drifters section. We have ours down pat, yet we are still playing catch-up on their section that we acquired. Nothing we can't figure out, yet we are doing it on the fly; gotta luv it!!

That about covers my thoughts for this month; more next month, I just need to remember where I put my thoughts! Just remember, keep your rubber side down and skis pointed down the trail!!

Guest Speaker

Wally Thill, our AWSC Director for Ozaukee County, will be our February's Guest Speaker! He will discuss the upcoming AWSC election, any legislation in the works, as well as his next year or two as our AWSC Director. For those of you new to our Club, Wally has been our director since two weeks shy of the beginning of the AWSC! That is one long run and the knowledge he has obtained over this time period has helped him direct the AWSC as best as possible while keeping snowmobilers and snowmobiling first and foremost! As we all know, the AWSC was created to ensure the sport snowmobiling along with the trails, would be here for the long run. Not surprisingly, our Club's founding fathers were part of the formation of the AWSC along with Wally (and I'll bet that our Club was one of the five at the very first meeting in 1969!..).

On another note, Wally is still looking for someone to take his place when he retires; if anyone is interested, please feel free to talk to Wally following our meeting. Thank you, Wally, for all you do!

Trails

Well, it was a great start to the season. We got all the trees cut and the swamps froze. Thanks Ken and everyone else who put in a lot of hours to get this accomplished! We were able to level all the banks at the road crossings and roll the complete trail circuit with the new roller, which worked awesome!!

If anyone has trail work documented, please be sure to turn it in to Dan or Dennis as soon as possible, so they can submit it.

Trail Report

The season is now into February and we are hopeful for a snowfall. Ken and I have brushed the circuit as of January 21st. If and when we get snow, we will have to recheck again due to windy conditions. The swamps are all frozen and are looking great.

Just need snow!!!

Whats Cookin' Corner

Oh Baby it's chili outside and its going to be chili inside at this month's meeting. "It's a chili dump" so we need chili – so far we have 3 people bringing chili and we need more. So if you love making chili, here's your chance to bring your famous recipe. We have sides to go with the chili and dessert coming. Jeff Bykowski (Carol) has been our dessert maker this season, thank you for doing that.

Please let me know if you are getting in the chili dump. Come warm up with us this month. See you at the meeting
Nesco Queen

Trail Worksheets

We are trying to keep up with all of our SNARS entries for trail work, however there was trail work done as far back as October and November of 2025 but we do not have trail worksheets for this work. Please Please Please turn in your trail worksheets so we can be current on the entries and if we need to contact you about an entry, its still fresh in your mind about the area you worked or equipment used.

Thanks Dennis

For Sale
